

leisure

Since 2009 we have successfully carried out numerous contracts for New Forest District Council involving refurbishment works to Recreation Centres under their jurisdiction. The latest of these is the substantial refurbishment of the New Milton Health & Leisure Centre.

The works comprised:

- refurbishment and alterations of the swimming area, WC's and changing rooms
- a new sauna suite and relaxation area.
- Re-tiling of the pool and surrounding areas
- Improvements to the changing facilities including new showers, larger cubicles and upgraded toilet facilities.
- Structural alterations and demolition of walls.
- Asbestos removal
- Redecoration

The pool was shut for 15 weeks to enable the work to be carried out. The remaining areas of the Centre, including the Sports Hall, were fully operational during the works.
